MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: "Soviet Men of Science"

1. Transmitted herewith is a first edition of a new OCD publication "Soviet Men of Science". As you know this is a continuing function of the Scientific Branch of our Biographic Register, and subsequent editions should further refine this publication and eventually result in a very reliable and accurate research aid.

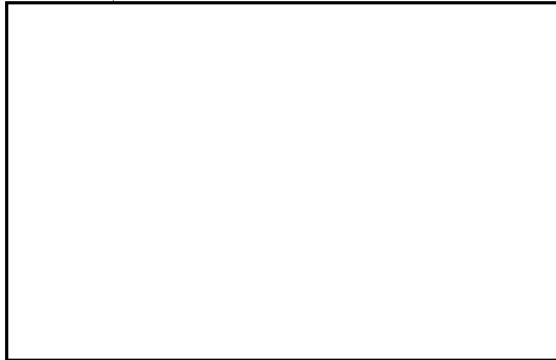

2. You might be interested in knowing that much of the work involved in compiling the data for "Soviet Men of Science" was done by the personnel in the Pool who were waiting clearance. A spot check of 50 or so pages reveals that close to 90% of the names therein were obtained by the Personnel Pool from unclassified sources, in other words from overt collection.

Acting Assistant Director
Collection & Dissemination
